

Jerome Urbano

FRONT-END DEVELOPER & UI/UX DESIGNER

Odiongan, Romblon, Philippines | +639560273149 | jeromeurbano41@gmail.com

PROFESSIONAL SUMMARY

Dedicated Front-End Developer and UI/UX Designer with a strong commitment to creating clean, responsive web applications. Proficient in HTML, CSS, and JavaScript, leveraging design principles to enhance the user experience across platforms.

EDUCATION

BS Information Technology

2023 - 2027

Romblon State University (Main Campus)

Odiongan, Romblon, Philippines

PROJECTS

Vehicle Registration Record Management System

November 16, 2025

Project Member

- Developed responsive and accessible web interfaces using HTML, CSS, JavaScript, and PHP, facilitating seamless student registration and document updates.
- Designed intuitive, role-based layouts for quick data verification and profile management, enhancing the usability for non-technical users.
- Streamlined user input and form workflows, reducing data entry errors and expediting record lookup processes.

G.U. Furniture Digital Showcase & Inquiry Web App

May 9, 2026

Project Owner

- Built a responsive web catalog using HTML, CSS, JavaScript, PHP, and MySQL to showcase local furniture products and allow direct customer inquiries.
- Created a simple admin panel that allows non-technical staff to easily upload multiple images and update product details.
- Designed a clean product display with easy-to-use layouts to improve visual presentation and user experience.

Personal Web Portfolio

September 12, 2026

Front-End Developer / Designer

- Built a responsive personal portfolio website to exhibit front-end projects and interactive 3D assets, boosting personal branding.
- Integrated real-time, serverless contact form submissions using Web3Forms/EmailJS, enhancing user communication without backend complexity.
- Engineered clean HTML, CSS, and JavaScript frameworks to ensure fast performance and smooth user interactions across various devices.

CERTIFICATIONS

- **PHP Master Class - The Complete PHP Developer Course** – Udemy (August 24, 2025)
Mastered core PHP scripting, database integration, and backend web application concepts.
- **Git Training** – Simplilearn SkillUP (April 24, 2025)
Completed hands-on training on version control workflows, repository management, branching, and code collaboration using Git.
